Task Title:

- Responsive Company Member Team Page

Task Description:

- The task of this project is to develop a responsive web page for the company member team page.

Steps Taken:

- I used the div tags in html to show certain elements together.
- I used hr tag to display the horizontal line on the page.
- I implemented the css using the external method.

Challenges Faced:

- To make it responsive, I used buttons instead of plain text.

Solutions Implemented:

- I made the images appear horizontally by nesting the different div tags and applying necessary css to it.

Learnings:

- I learned how to make the images appear side by side.

Project Update:

- The project is almost finished, the two bookmark icons are missing from the page, I tried to add them but they were not lining with the page properly.
